Samsung Home Appliances

SAMSUNG

The new normal is now.

Houses that manage the home. Refrigerators that do the grocery shopping. Washers that do two loads at once. And one app to control them all.

At Samsung, we're not predicting the future. We're creating it with practical innovation that turns heads and profits. It's all part of what's made Samsung **America's #1 home appliance brand** and the fastest growing appliance brand among builders.

Chef Collection Wall Ovens

Single and Double Wall Ovens with Flex Duo™ feature a Smart Divider and separate controls that split the oven into two. The Microwave Combination Wall Oven features a Speed Cook microwave oven on top and a convection oven with Steam Cook on the bottom.

Chef Collection Pro Ranges

A 22K BTU Dual Power Burner provides two independent burners, offering intense heat and precise control to quickly boil water or slowly melt chocolate without scorching.

Chef Collection Induction and Gas Cooktops

Induction models feature a Flex Zone, which automatically adapts to the shape and size of your pots. Gas models with a 22K BTU Dual Power Burner feature two independent burners offering intense heat and precise control.

Chef Collection Ventilation

Automatically adjusts the fan speed based on heat from the cooktop.

Chef Collection Dishwashers

The WaterWall™ cleaning system delivers a powerful streaming wall of water to leave dishes remarkably clean. AutoRelease™ Door automatically opens the door at the end of a cycle to circulate air and accelerate drying time.

Chef Collection Refrigerators

The 4-Door 42" Flex Built-In is designed with FlexZone™ that can easily switch from freezer to refrigerator.

Samsung Chef Collection
Inspired by chefs. Created for you.

Samsung Chef Collection perfectly blends advanced, chef-inspired technology with contemporary elegance.

Elegant Design
Matte black stainless steel finishes with tactile details; seamless, flush-mount designs; and impeccable attention to detail.

Connected Technology
Bluetooth® connectivity that brings your appliances to life; remote-view cameras and Wi-Fi enabled monitoring from your mobile device.

Chef-Inspired Performance
Single ovens that convert into two; refrigerator compartments that easily switch from fridge to freezer; and dishwashers that clean with a wall of water.

NV51M9770D

30" Double Wall Oven

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
NV51M9770DM/AA

Stainless Steel
NV51M9770DS/AA

Integrated Flush Mount
Installation seamlessly blends in with cabinetry.

One-Touch Steam Cook
Easy-fill steam tray delivers moisture at precise times for a crisp, browned outside and tender inside.

Flex Duo™
Smart divider creates two different cooking zones by splitting the 5.1 cu. ft. super-capacity upper oven into two.

NV51M9770S

30" Single Wall Oven

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
NV51M9770SM/AA

Stainless Steel
NV51M9770SS/AA

Integrated Flush Mount
Installation seamlessly blends in with cabinetry.

One-Touch Steam Cook
Easy-fill steam tray delivers moisture at precise times for a crisp, browned outside and tender inside.

Flex Duo™
Smart divider creates two different cooking zones by splitting the 5.1 cu. ft. super-capacity oven into two.

NQ70M9770

30" Microwave Combination Wall Oven

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
NQ70M9770DM/AA

Stainless Steel
NQ70M9770DS/AA

Integrated Flush Mount
Installation seamlessly blends in with cabinetry.

One-Touch Steam Cook
Easy-fill steam tray delivers moisture at precise times for a crisp, browned outside and tender inside.

Speed Cook Oven
Allows you to bake, broil or microwave food in the 1.9 cu. ft. upper oven for faster and more even cooking.

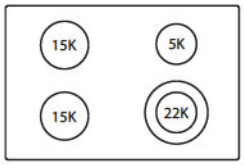
NX58M9960

30" Gas Pro Range

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
NX58M9960PM/AA

Stainless Steel
NX58M9960PS/AA



22K BTU Dual Power Burner
Two independent heating burners offer intense heat and precise control to quickly boil water or slowly melt chocolate without scorching.

Dual Convection
Twin fans circulate air for fast, even cooking on all three racks.

Bluetooth® Connectivity
Automatically starts the hood* when the range turns on.

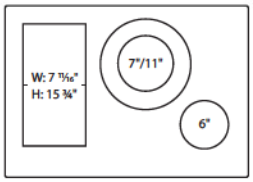
* With compatible Samsung ventilation hood

NZ30M9880

30" Induction Cooktop

Available Color

Black
NZ30M9880UB/AA



Digital-Analog Controls
Choose between a removable magnetic analog knob or digital touch controls.

Virtual Flame™ Technology
Virtual Flame™ technology gives the visual of gas cooking and the precision of induction cooking.

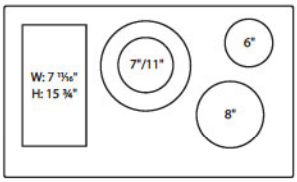
Flex Zone
Flex Zone automatically adapts to the shape and size of your pots and pans.

NZ36M9880

36" Induction Cooktop

Available Color

Black
NZ36M9880UB/AA



Digital-Analog Controls
Choose between a removable magnetic analog knob or digital touch controls.

Virtual Flame™ Technology
Virtual Flame™ technology gives the visual of gas cooking and the precision of induction cooking.

Flex Zone
Flex Zone automatically adapts to the shape and size of your pots and pans.

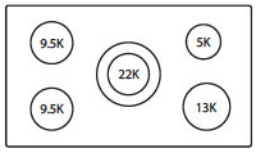
NA30N9755

30" Gas Cooktop

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
NA30N9755TM/AA

Stainless Steel
NA30N9755TS/AA



Modern Design
Sleek, smooth, beveled front-control design with edge-to-edge, matte-finish, cast iron grates.

22K BTU Dual Power Burner
Two independent burners offer intense heat and precise control to quickly boil water or slowly melt chocolate without scorching.

Bluetooth® Connectivity
Automatically starts the hood* when the cooktop turns on.

* With compatible Samsung ventilation hood

NA36N9755

36" Gas Cooktop

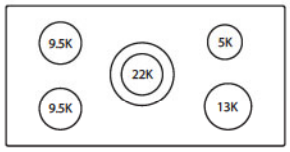
Stainless Steel
NA36N9755TS/AA



Modern Design
Sleek, smooth, beveled front-control design with edge-to-edge, matte-finish, cast iron grates.

22K BTU Dual Power Burner
Two independent burners offer intense heat and precise control to quickly boil water or slowly melt chocolate without scorching.

Bluetooth® Connectivity
Automatically starts the hood* when the cooktop turns on.

* With compatible Samsung ventilation hood

NK30M9600

30" Range Hood

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
NK30M9600WM/AA

Stainless Steel
NK30M9600WS/AA

Auto Heat-Sensing Hood
Automatically adjusts the fan speed based on heat coming from the cooktop.

Bluetooth® Connectivity
Connects the range* or cooktop* to the hood and automatically starts when they turn on.

Dishwasher-Safe Baffle Filters
Help keep the air clean by drawing grease and odor through the hood.

* When connected with a compatible Samsung range/cooktop

NK36M9600

36" Range Hood

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
NK36M9600WM/AA

Stainless Steel
NK36M9600WS/AA

Auto Heat-Sensing Hood
Automatically adjusts the fan speed based on heat coming from the cooktop.

Bluetooth® Connectivity
Connects the range* or cooktop* to the hood and automatically starts when they turn on.

Dishwasher-Safe Baffle Filters
Help keep the air clean by drawing grease and odor through the hood.

* When connected with a compatible Samsung range/cooktop

DW60M9990

Panel-Ready WaterWall™ Dishwasher

Available Color

Panel-Ready
DW60M9990AP/AA

Panel-Ready Design*
Seamlessly blends in with existing cabinetry.

AutoRelease™ Door
Automatically opens the door at the end of a cycle to circulate air and accelerate drying time.

WaterWall™
Delivers corner-to-corner coverage, so that even your dirtiest dishes will come clean.

* Custom panel and handle not included

DW80M9990

WaterWall™ Dishwasher

Available Colors

Matte Black Stainless Steel
DW80M9990UM/AA

Stainless Steel
DW80M9990US/AA

Modern Design
Premium, horizontal brushed metal finish brings beauty to any kitchen.

AutoRelease™ Door
Automatically opens the door at the end of a cycle to circulate air and accelerate drying time.

WaterWall™
Delivers corner-to-corner coverage, so that even your dirtiest dishes will come clean.

BRF425200

42" 4-Door Flex™ Built-In Refrigerator
23.5 cu. ft. capacity

Available Color

Panel-Ready
BRF425200AP/AA

Accessory Kit Options*

Fingerprint Resistant Matte Black Stainless Steel
RAT42ACAAMS/AA

Fingerprint Resistant Stainless Steel
RAT42ACAAS4/AA

Integrated Flush Mount
Counter-depth, panel-ready design seamlessly blends in with cabinetry and aligns perfectly with countertops.

Wi-Fi Enabled with Remote View Cameras
Allows you to view what's inside your refrigerator directly from your mobile device.

FlexZone™
Convertible zone that has four different temperature settings, allowing you to easily switch from freezer to refrigerator.

*Matte Black Stainless Steel and Stainless Steel require additional purchase of accessory kit - RAT42ACAAMS or RAT42ACAAS4

BRF365200

36" French Door Built-In Refrigerator
21.3 cu. ft. capacity

Available Color

Panel-Ready
BRF365200AP/AA

Accessory Kit Options*

Fingerprint Resistant Matte Black Stainless Steel
RAF36ACAAMS/AA

Fingerprint Resistant Stainless Steel
RAF36ACAAS4/AA

Integrated Flush Mount
Counter-depth, panel-ready design seamlessly blends in with cabinetry and aligns perfectly with countertops.

Wi-Fi Enabled with Remote View Cameras
Allows you to view what's inside your refrigerator directly from your mobile device.

Twin Cooling Plus™
Maintains high levels of refrigerator humidity to keep fruits and vegetables fresher longer, as well as dry freezer conditions to minimize freezer burn.

*Matte Black Stainless Steel and Stainless Steel require additional purchase of accessory kit - RAF36ACAAMS or RAF36ACAAS4

RF23M8960

36" 4-Door French Door Counter-Depth Refrigerator
22.6 cu. ft. capacity

Available Colors

Fingerprint Resistant Matte Black Stainless Steel
RF23M8960MT/AA

Fingerprint Resistant Stainless Steel
RF23M8960S4/AA

Sleek Counter-Depth Look
Counter-depth design offers a sleek, built-in look.

Autofill Pitcher with Infuser
The built-in Autofill Pitcher automatically refills, providing cold water anytime you need it and the option to infuse your favorite refreshing flavor.

FlexZone™ Drawer
Separately controlled FlexZone™ drawer allows you to set four different temperatures.

Built-In Cooking

Download Spec Sheets and Line Drawings at samsung.com/builder

The Power of Steam

Steam cooking technology delivers moisture at precise times, so food has a crisp exterior and tender inside.

Flexible Cooking

The removable Flex Duo™ Smart Divider splits one oven into two. Cook two dishes at two different temperatures, or choose to have one large-capacity oven.

Intuitive Display

Enjoy the convenience of analog knobs combined with the advanced technology of a touch-controlled digital display.

Induction Cooking

Virtual Flame™ technology provides a superior cooking experience by combining the visual of gas cooking with the precision of induction cooking.

Precision Control

Choose between the comfort of the removable magnetic analog knob or the sleek interface of digital touch controls.

NQ70M7770D

30" Microwave Combination Wall Oven

Available Colors

Fingerprint Resistant Black Stainless Steel
NQ70M7770DG/AA

Stainless Steel
NQ70M7770DS/AA

1.9/5.1 cu. ft. Capacity
The largest-capacity microwave combination wall oven among leading brands.*

Flex Duo™
Cooks two dishes at different temperatures simultaneously with the Smart Divider.

Steam Cook (Oven)
Delivers moisture at precise times for a crisp, browned outside and tender inside.

Speed Cook (Microwave)
Cook food faster and more evenly by using true convection.

Digital-Analog Controls
A combination of analog knobs and a digital touchscreen.

*Based on 2016 unit sales among brands with over 90% market share of major kitchen appliances (TraQline)

NQ70M6650D

Flex Duo™

A removable Smart Divider and dual temperature controls allow you to choose between two ovens or one.

Dual Door™

Unique middle-hinged door can open just the top section or the full oven for total flexibility and energy efficiency.

Blue LED Illuminated Knobs

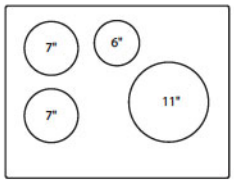
Visually lets you know if your cooktop is on, even at a distance.

NE58K9560WS

5.8 cu. ft. Virtual Flame™ Technology Slide-In Induction Range

Available Color

Stainless Steel
NE58K9560WS/AA



Virtual Flame™ Technology
LED surface lights shine onto pots and pans to give you the visual of gas cooking with the precision of induction cooking.

Dual Convection
Circulates air for more even and efficient cooking results.

Slide-In Design
Modern and sleek built-in look that blends seamlessly with your kitchen.

Glass Touch Controls
Seamless, integrated and premium design that is easy to clean.

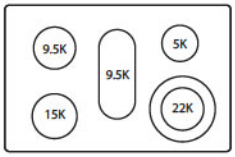
Wi-Fi Connectivity
Remotely monitor your cooktop and control your oven.

NY58J9850WS

5.8 cu. ft. Flex Duo™ with Dual Door™ Slide-In Dual Fuel Range

Available Color

Stainless Steel
NY58J9850WS/AA



Dual Fuel
Samsung's first combination gas cooktop and electric oven provides the best of both worlds for precision and efficiency. And the gas cooktop offers powerful, even and precise heating.

Flex Duo™
A removable Smart Divider and dual temperature controls allow you to choose between two ovens or one.

Dual Door™
A hinged door gives you access to just the top compartment or the full oven for total flexibility and energy efficiency.

22K BTU True Dual Power Burner
Two independent heating elements with power ranging from high heat to a true simmer.

Dual Convection
Circulates air for more even and efficient cooking results.

Powerful Heat

Power convection technology heats evenly and cooks 30% faster than a standard convection microwave.

PowerGrill

The PowerGrill feature lets you toast, crisp and brown your favorite foods.

Black Stainless Steel

Clean and contemporary, a black stainless steel finish brings an added level of sophistication to your kitchen.

MC17J8000

1.7 cu. ft. Over-the-Range Convection Microwave

Available Colors

Fingerprint Resistant Black Stainless Steel
MC17J8000CG/AA

Fingerprint Resistant Stainless Steel
MC17J8000CS/AA

Convection Cooking
Enjoy the flexibility to microwave, bake, broil and roast — all from one appliance. With the combination of convection cooking and microwave heating, food cooks faster and more evenly than a traditional microwave.[1]

Ceramic Enamel Interior
Effortlessly remove grease or oil from surfaces and protect against scratches.

Slim Fry™
Prepare great-tasting food with less fat.[2]

Three-Speed/300 CFM
Powerful ventilation system quickly and quietly eliminates steam, fumes and odor from the kitchen.

[1]Fresh vegetables in less than two minutes. Roasted chicken in 14 minutes. Two potatoes will bake in 11 minutes.
[2]Compared to cooking with deep frying

2.1 cu. ft. PowerGrill Over-the-Range with Ceramic Enamel Interior and Glass Touch Controls

Available Colors

Fingerprint Resistant Black Stainless Steel
ME21K7010DG/AA

Fingerprint Resistant Stainless Steel
ME21K7010DS/AA

PowerGrill
Direct grilling element provides powerful heating to toast, crisp and brown your favorite food.

Ceramic Enamel Interior
Effortlessly remove grease or oil from surfaces and protect against scratches.

Sensor Cook
Automatically adjusts cooking time with vapor-sensing technology for optimal results.

Glass Touch Bottom Controls
Seamless, integrated and premium design is easy to clean.

LED Cooktop Lights
Evenly distributed bright lights illuminate the cooktop. More energy efficient and brighter than incandescent or halogen lights.

ME21F707MJT

2.1 cu. ft. Over-the-Range Microwave

Available Color

Fingerprint Resistant Stainless Steel
ME21F707MJT/AA

2.1 cu. ft. Large Capacity
Accommodates a variety of snacks and meals.

Ceramic Enamel Interior
Effortlessly remove grease or oil from surfaces and protect against scratches.

Glass Touch Bottom Controls
Seamless, integrated and premium design is easy to clean.

LED Cooktop Lights
Evenly distributed bright lights illuminate the cooktop. More energy efficient and brighter than incandescent or halogen lights.

Simple-Clean Filter
Convenient, easy-to-access location is simple to eject with one touch and helps you remember when to clean the filter.

ME16H702SEB/AA

1.6 cu. ft. Capacity
Accommodates a variety of snacks and meals.

Premium Design
One-piece door design with an aluminum handle and side control provides a seamless and modern look.

LED Display
Striking blue LED display adds clarity and style to your kitchen.

Eco Mode
Conserves energy by turning off the display when not in use.

Two-Speed/300 CFM
Powerful ventilation system quickly and quietly eliminates steam, fumes and odor from the kitchen.

ME16K3000

1.6 cu. ft. Over-the-Range Microwave

Available Color

Stainless Steel
ME16K3000AS/AA

1.6 cu. ft. Capacity
Accommodates a variety of snacks and meals.

Cooking Presets
Preset cook modes for everyday dishes.

LED Display
Striking blue LED display adds clarity and style to your kitchen.

Eco Mode
Conserves energy by turning off the display when not in use.

Two-Speed/300 CFM
Powerful ventilation system quickly and quietly eliminates steam, fumes and odor from the kitchen.

MC12J8035CT

1.2 cu. ft. Countertop Microwave with Power Convection & PowerGrill Duo™

Available Color

Stainless Steel
MC12J8035CT/AA

Power Convection
Combines traditional convection cooking with powerful hot air coming from the top, distributing the heat thoroughly and cooking faster than a standard convection microwave oven.

PowerGrill Duo™
Enjoy crisp food in minutes as the grill function works to brown and crisp your food outside without drying the inside. Its innovative wide grill heater delivers significantly more power, up to a maximum of 1600W.

Ceramic Enamel Interior
Effortlessly remove grease or oil from surfaces and protect against scratches.

Slim Fry™
Prepare great-tasting food with less fat.*

Microwave Trim Kit
Crafted from high-quality stainless steel, the MA-TK3080CT trim kit accessory (available for purchase) gives you the flexibility to install your MC12J8035CT countertop microwave into a wall or cabinet.

*Compared to cooking with deep frying

MC11K7035CG

1.1 cu. ft. Power Convection & PowerGrill Countertop Microwave with Ceramic Enamel Interior

Available Color

Fingerprint Resistant Black Stainless Steel
MC11K7035CG/AA

Power Convection
Combines traditional convection cooking with powerful hot air coming from the top, distributing the heat thoroughly and cooking faster than a standard convection microwave oven.

PowerGrill
Direct grilling element provides powerful heating to toast, crisp and brown your favorite food.

Ceramic Enamel Interior
Effortlessly remove grease or oil from surfaces and protect against scratches.

Slim Fry™
Prepare great-tasting food with less fat.*

Sensor Cook
Automatically adjusts cooking time with vapor-sensing technology for optimal results.

Bluetooth® Connectivity

Bluetooth® connects the range or cooktop to the hood, so the fan automatically starts when they do.

Digital Touch Controls

All models feature seamlessly integrated controls that are as beautiful as they are easy to clean.

Wi-Fi Enabled

Control the vent hood's power, speed and LED lights directly from your mobile device when connected with a compatible Samsung range/cooktop.

Modern Design

Dishwasher-safe baffle filters help keep the air clean by drawing grease and odor through the hood.

Family Hub™

Helps you manage your home and your life with Food Management, Family Connection and Entertainment capabilities — all controlled from a 21.5" connected touchscreen.

Flexible Storage Options

Models with FlexZone™ have the versatility to switch between a refrigerator and a freezer. This feature is available on many 4-Door French Door and all Top Freezer models.

Stunning Modern Design

French Door refrigerators are available in stylish 3- and 4-door designs with ultra high-capacity product options that save you trips to the store.

Enhanced Storage Capacity

Side-By-Side refrigerators come with features like Food Showcase, which gives you easy access to the items you reach for most.

Black Stainless Steel

Clean and contemporary, the black stainless steel finish brings an added level of sophistication to your kitchen.

RF28HMEDBWW/AA

FlexZone™ Drawer
The counter-height FlexZone™ drawer is optimized for family organization. It includes an adjustable Smart Divider, easy access for kids and four temperature control settings from Chill to Soft Freeze.

Large Capacity
Our 4-Door French Door refrigerator has enough room to fit up to 28 bags of groceries.[1]

Twin Cooling Plus™
Maintains high levels of refrigerator humidity to keep perishable fruits and vegetables fresher longer. Dry freezer conditions mean less freezer burn for better-tasting frozen foods.[2]

Ice Master
Produces up to 10 lbs. of ice per day and stores up to 4.2 lbs. of ice. This space-saving design leaves more room in the refrigerator.

Laundry

Download Spec Sheets and Line Drawings at samsung.com/builder

FlexWash™

Two washers in one lets you wash separate loads at the same time or independently.

AddWash™

With AddWash™, you can conveniently add in forgotten garments after the cycle has begun, without starting all over again.

activewash™

Add a sink to your laundry room for all your stain removal and pre-treating needs. Simply lift the sink to let items fall into the washer.

ENERGY STAR® Certified

Eco-friendly and energy-efficient, Samsung dryers meet the government's strict energy efficiency standards.

Multi-Steam™ Technology

Reduce wrinkles, odors, bacteria and static with powerful and flexible steam options.

Vent Sensor

Detects duct blockages and reminds you to clean your vent.

Washer

FlexWash™
Two washers in one let you wash separate loads at the same time.

5.0 cu. ft. + 1.0 cu. ft. Capacity
Upper and lower washers mean fewer washes, less time in the laundry room and more time for you.

Super Speed
Wash a full load in as little as 30 minutes – 50% faster.[1]

Wi-Fi Connectivity
Remotely control and monitor your Samsung washer and dryer from anywhere using your mobile devices.[2]

Dryer

FlexDry™
Two dryers in one let you dry delicates and everyday garments at the same time.

ENERGY STAR® Certified
Meets the strict energy efficiency specifications and standards.[3]

Multi-Steam™ Technology
Steam away wrinkles, odors, bacteria and static.

Delicate Dryer
Flat dry delicates, sweaters and accessories to prevent items from shrinking and fabric damage.

Wi-Fi Connectivity
Remotely control and monitor your Samsung washer and dryer from anywhere using your mobile devices.[2]

[1]Normal 59-minute wash can now be completed in as little as 30 minutes as compared to WV55M9600 washer without Super Speed. Based on DOE standard's average of 7.5 loads per week.
[2]Only monitoring is allowed for gas dryer for safety reasons. Requires wireless network and Samsung SmartThings app. The Samsung SmartThings app supports Android OS 4.0 (ICS) or later which is optimized for Samsung smartphones (Galaxy S and Galaxy Note series). This app also supports iOS 7 or later for iPhone models. SmartThings app available in App Store and Play Store.

Washer

QuickDrive™
QuickDrive™ reduces washing time by up to 35%, without compromising the cleaning performance[1]. Its Q-Drum™ has a main drum and a backplate that rotate independently, amplifying water movement so that clothes are cleaned gently, quickly and powerfully.

2.2 cu. ft. Capacity
Fewer washes, less time in the laundry room and more time for you.

Q-rator
Q-rator is a smart management system that uses data captured during user interactions[2] to utilize QuickDrive™ more effectively. Laundry Recipe recommends optimal wash cycles. Laundry Planner helps optimize your laundry schedule. HomeCare Wizard enables remote troubleshooting.

PowerFoam™
Our unique PowerFoam™ technology uses an innovative mixture of water, air and detergent to penetrate deep into the heart of fabric. Confidently deep clean even your bulkiest items with the power of foam.

Dryer

ENERGY STAR® Certified
Meets the strict energy efficiency specifications and standards.[3]

4.0 cu. ft. Capacity
Fewer loads, less time in the laundry room and more time for you.

Smart Care
Smart Care interacts with your dryer to perform an immediate diagnosis and offer quick solutions.

Sensor Dry
Optimizes cycle time and temperature to dry clothes thoroughly while preventing heat damage.

14 Preset Drying Cycles
Makes it easy to give each fabric type the right care needed for your family.

[1]Tested on Samsung WW6850N compared with WW6800K. Saves up to 35% time on Heavy Duty (hot, 6-lb load) with a washing performance equal to or better than WW6800K, based on UL data referring to AHAM HLW-1-2013
[2]A Samsung application account is necessary and available on Android and iPhone devices. A network connection is required. App stores user data, preferences and usage patterns to suggest the useful options. Q-rator available Washer and Heat pump dryer only.
[3]Visit www.energystar.gov for more information on ENERGY STAR® guidelines. Heat pump only.

Washer

activewash™
A built-in sink right inside your washer for all your stain removal and pre-treating needs.

5.2 cu. ft. Capacity
Fewer washes, less time in the laundry room and more time for you.

Super Speed
Wash a full load in as little as 36 minutes – 35% faster.[1]

Vibration Reduction Technology Plus™
Reduces vibration 40% more than our standard VRT™ for quiet washing.

Dryer

ENERGY STAR® Certified
Meets the strict, energy efficiency specifications and standards.[2]

7.4 cu. ft. Capacity
Fewer loads, less time in the laundry room and more time for you.

Multi-Steam™ Technology
Steam away wrinkles, odors, bacteria and static.

Eco Dry
Uses up to 25% less energy for every load.

[1]Normal 56-minute wash can now be completed in as little as 36 minutes with Super Speed on the WA52M8650.
[2]Visit www.energystar.gov for more information on ENERGY STAR® guidelines.

Powerful Robotic Suction

Delivers optimal cleaning results.

Edge Clean Master

Thoroughly cleans corners and edges of the wall.

Self-Clean Brush

Automatically removes hair tangles around the brush.

Wi-Fi Connectivity

Allows you to remotely control your robot vacuum with your smartphone.

Visionary Mapping™ Plus and FullView Sensor™ 2.0

Creates optimal cleaning path and avoids obstacles.

CycloneForce™ Technology

Get consistent power with less clogging.* Strong centrifugal forces separate dirt and debris into an outer chamber to maintain long-lasting suction power.

* Tested internally on Samsung POWERbot VR7000 and Samsung conventional VR10F71UCAC

VR2AK9350WK

POWERbot Turbo Robotic Vacuum

Available Color

Ebony Copper
VR2AK9350WK/AA

World's Most Powerful Robotic Suction
Delivers 70x more powerful cleaning on all floor types when compared to a conventional robot vacuum with a circular design.[1]

Visionary Mapping™ Plus and FullView Sensor™ 2.0
Creates optimal cleaning path and avoids obstacles.

CycloneForce™ Technology
More consistent power with less clogging.[2]

Point Cleaning™
Simply point for on-demand vacuum cleaning.

Wi-Fi Connectivity with Select & Go
Remotely select rooms you want to clean with your smartphone.

[1]Tested internally on Samsung POWERbot VR9000 and Samsung conventional VR10F71UCAC
[2]Than our previous model

VR2AJ9250WW

POWERbot Robotic Vacuum

Available Color

Airborne Copper
VR2AJ9250WW/AA

50x More Powerful Robotic Suction
Delivers 50x more powerful cleaning on all floor types when compared to a conventional robot vacuum with a circular design.

Visionary Mapping™ Plus and FullView Sensor™ 2.0
Creates optimal cleaning path and avoids obstacles.

CycloneForce™ Technology
More consistent power with less clogging.[2]

Point Cleaning™
Simply point for on-demand vacuum cleaning.

Wi-Fi Connectivity

VR2AM7090WD

POWERbot Pet Robotic Vacuum

Available Color

Satin Gold
VR2AM7090WD/AA

40x More Powerful Robotic Suction
Delivers 40x more powerful cleaning on all floor types when compared to a conventional robot vacuum with a circular design.[1]

Edge Clean Master
An innovative rubber blade extends out to clean hard-to-reach areas, like corners and along the edges of the wall.

Self-Clean Brush
Automatically detangles and removes pet hair that collects around the brush.

Visionary Mapping™ Plus and FullView Sensor™ 2.0
Onboard camera and multiple sensors create the ideal cleaning path for multi-room cleaning while avoiding obstacles along the way. Coverage map shows you where POWERbot has cleaned.

Wi-Fi Connectivity
Remotely control your robot vacuum on your smartphone[2] or through voice-enabled devices such as Bixby, Amazon Alexa or the Google Assistant.[3]

[1]Tested internally on Samsung POWERbot VR7000 and Samsung conventional VR10F71UCAC
[2]Through SmartThings app
[3] Amazon Alexa devices, Bixby devices and the Google Assistant devices sold separately

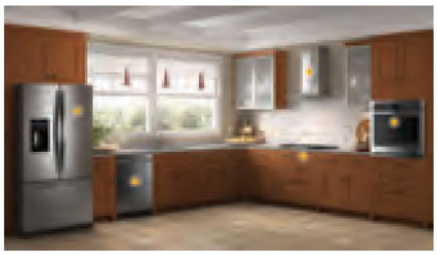
True innovation takes the complexity out

We make it easy. Whether it's in the kitchen or the laundry room, Whirlpool® appliances will fit seamlessly into your home and your life. We balance the latest technology with effortless features that will exceed your expectations and change the way you think about appliances. Our innovations sense and adapt to your needs, so you can spend less time with your appliances and more time doing what you love.

Whirlpool® Kitchen Stylist™ Tool

Inspiration and innovation become seamless with Whirlpool brand's new online interactive kitchen design tool. Now you can try out your favorite kitchen designs and appliances like never before. Select your personal kitchen style, configuration, wall colors and cabinets to see what your virtual kitchen will look like when enhanced with Whirlpool® appliances. When you're done, you can even save and share your kitchen with friends and family.



Visit whirlpool.com/kitchen-stylist to get started now

Whirlpool brand has the Seal

Select Whirlpool® appliances have earned the Good Housekeeping Seal. For over 100 years, the Seal has helped you feel confident about your product purchases. Look for the limited warranty reflected by the Good Housekeeping Seal throughout this catalog. If these select products become defective within the first two years of purchase, Good Housekeeping will replace the product, repair it or refund the purchase price.

Visit goodhousekeeping.com/seal for warranty details.

Laundry made easy with Whirlpool™ WashSquad

Download the newest app from Whirlpool brand and make doing laundry a fun game the whole family can enjoy. Now you can assign tasks, enjoy tips and tricks and reward family members for completing the laundry just the way you want it from the palm of your hand.

Whirlpool™ WashSquad
Search WHIRLPOOL in the App Store to download the newest laundry app from Whirlpool brand.

FRENCH DOOR REFRIGERATORS

Most flexible storage*

Select models feature a FreshStor™ refrigerated drawer, EasyView™ Triple Crisper system and Tri-freezer system, so you'll always have the perfect place to store bulk food purchases, small snacks, produce and whatever else you bring home from the grocery store.

Innovative cooling

AccuFresh® dual cooling technology helps keep fruits and vegetables fresher and helps keep crystals off ice cream. It senses interior conditions and independently adapts cooling in both the refrigerator and freezer compartments so the ideal climate for fresh and frozen food is always maintained.

Creates more space with innovative spill-control technology

Keep spills under control and prevent them from leaking onto other shelves with the MicroEdge® shelves' innovative spill-control technology. They also offer 25% more usable shelf space.**

Opens up refrigerator space

The In-Door-Ice® system creates room for an extra shelf in the refrigerator compartment by storing the ice bin in the door. A removable, clear ice bin lets you fill coolers with ease.

NOTE: Not all features are available on all models.

*Among leading brand french door refrigerators with external refrigerated drawers based on combined refrigerator and freezer storage options and adjustable features. **Compared to Whirlpool® french door models without MicroEdge® shelves.

SIDE-BY-SIDE REFRIGERATORS

Industry's largest capacity side-by-side refrigerator*

Store all your favorite foods quickly and easily with leading capacity from Whirlpool brand. Select models offer gallon-size storage in the door and additional shelf and freezer space to make room for bulk food purchases and sheet cakes.

Delivers more space with innovative spill-control technology

Keep spills under control and prevent them from leaking onto other shelves with the MicroEdge® shelves' innovative spill-control technology. They also offer 25% more usable shelf space.**

Cools food quickly

Save energy and cool your food quickly with the Accu-Chill™ temperature management system. This intuitive system senses and adapts using built-in sensors to save energy and deliver efficient cooling performance, while Adaptive Defrost saves more energy† by defrosting only when necessary.

Opens up freezer space

By placing the icemaker and removable ice bin in the door, the In-Door-Ice® Plus system creates 30% more usable space in the freezer.†† The ice bin also tilts out, or can be removed with one hand, to make filling glasses or pitchers with fresh, filtered ice easy.

NOTE: Not all features are available on all models.

*Among freestanding side-by-side refrigerators. **Compared to Whirlpool® side-by-side models without MicroEdge® shelves. †As compared to Whirlpool® side-by-side refrigerators without Adaptive Defrost. ††Compared to 26 cu. ft. Whirlpool® models with conventional icemakers.

WRT371SZBM

TOP-FREEZER REFRIGERATORS

Flexible innovations for fresh and frozen food

Select models feature storage innovations like the largest capacity pantry drawer available,* a fold-away shelf and Tilt-N-Go door bins. Right Fit™ door bins also perfectly hold gallon-size containers. Now you can easily store groceries where you need them.

Superior cooling performance

The temperature management system senses and adapts to deliver great food preservation. Adaptive Defrost saves up to 12% more energy** by running the defrost cycle only when necessary and by monitoring how often the compressor operates and when the doors are open.

Keeps food fresh

The FreshFlow™ air filter reduces common food odors by actively circulating air through the carbon-based filter. The FreshFlow™ produce preserver also helps keep produce fresh longer† by absorbing ethylene gas that causes produce to over-ripen more quickly.

Puts filtered water in reach

Whirlpool brand offers the industry's only top-freezer refrigerator with an exterior dispenser and electronic controls. Select models offer cold, filtered water without opening the door and easy access to features.

NOTE: Not all features are available on all models.

*Among leading brand top-freezer refrigerators with pantry drawers based on drawer volume. This is only applicable to 21 cu. ft. models.
**As compared to previous Whirlpool® top-freezer models with Adaptive Defrost; based on 24-hour interval with refrigerator doors left unopened.

EV188NYWS & EL88TRRWS

FREEZERS

Locks in freshness

Keep your favorite foods frozen longer* during a power outage with Whirlpool® chest freezers. Select models keep cold air in when the power goes out, so food stays frozen for up to 17 hours when there's a power outage.* That's one less thing you have to worry about.

Flexible installation

Reversible upright freezer doors can be installed to open from the right or the left, depending on kitchen style and configuration, for added flexibility.

Saves energy

The #1 rated brand for upright freezers** also delivers nearly an entire lineup of ENERGY STAR® qualified models to choose from. Now it's even easier to store extra frozen food while using less energy, which saves money and helps the environment.

Innovative storage strength

Whirlpool® chest freezers feature a solid core lid that is durable enough to support 250 lbs without harming the chest freezer.

NOTE: Not all features are available on all models.

*Based on average performance of Whirlpool® 15 cu. ft. chest freezers using AHAM Household Refrigerator and Freezer Performance Testing (models EH151FXT and EH155FXB). **Based on rating of Whirlpool® model EV161NZT among self-defrost upright freezers by a leading consumer magazine.

Accessories

FreshFlow™ Produce Preserver Starter Kit (P1FB6S1)

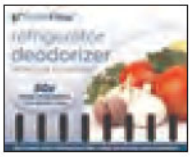
Help keep produce fresh longer* inside the refrigerator. This starter kit fits in any refrigerator bin.

FreshFlow™ Ice Cube & Freezer Deodorizer (4392894SRB)

Ideal for the high airflow and low moisture of the freezer, this deodorizer traps odors before they are frozen in ice cubes.

FreshFlow™ Produce Preserver (FRESH1/W10346771A)

This replaceable cartridge provides 6 months of ethylene absorption in the crisper drawer, helping keep produce fresh longer.*



FreshFlow™ Refrigerator Deodorizer (8171398SRB)

Ideal for the low airflow and high moisture levels of the refrigerator, this deodorizer absorbs powerful refrigerator odors, like onion, garlic and fish.

FreshFlow™ Air Filter (AIR1/W10311524)

This smart air filter is up to 15 times more effective than baking soda in reducing common food odors. Replace filter every 6 months for optimal performance.

Multi-Use Cleaning Brush (4210463RW)

Recommended for cleaning refrigerators, this brush helps save energy and ensures proper performance Size 37-1/2" (L) x 2" (W) x 2" (D).

Bottom-freezer refrigerators	IC13B	—
30" Width french door refrigerator	IC14B	—

Glossary

Accu-Chill™ temperature management system
Built-in sensors measure the internal temperature and activate the compressor only when necessary to conserve energy while helping to keep food fresh.

AccuFresh® dual cooling technology
This innovative dual evaporator system is found on select french door refrigerators. It helps keep fruits and vegetables fresher and helps keep crystals off ice cream. It uses the ideal humidity levels in the refrigerator and freezer compartments for improved food preservation.

ADA compliant
Top-freezer refrigerators with this designation fully comply with federal guidelines for accommodating persons with disabilities.

Adaptive Defrost
Monitors when the compressor is running and defrosts only when necessary, resulting in improved food preservation and energy savings.

Adjustable door storage
Gives you the flexibility to store items anywhere in the refrigerator door by moving bins where and when you need them.

Automatic defrost system
Refrigerators with this system melt away frost so you don't have to take everything out of your freezer to melt built-up ice.

Can caddy
Holds and dispenses beverage cans to make accessing your favorite beverages quick and easy.

CEE Tier Standards
Based on the Consortium for Energy Efficiency (CEE) qualifying product lists—with the Tier 3 standard being the most efficient.

Clear convertible compartment
Helps preserve the freshness of meat and vegetables by allowing cool air from the freezer to enter the convertible compartment at the level you select.

Clear humidity controlled crisper
Help preserve the freshness of your favorite fruits and vegetables with controlled humidity levels in the clear, extra-deep crisper.

Condiment Caddy
Makes transferring condiments or other items from the refrigerator to the table or grill easy.

Counter depth configuration
Fits virtually flush with the countertop, providing up to 6 inches of additional kitchen space while retaining the features and capacity you expect from a Whirlpool® refrigerator.

EasySlide bin
Keep snacks close at hand with the industry-exclusive EasySlide bin. This snack compartment makes accessing everyday items easy with greater flexibility and sliding glass lids.

EasyView™ Triple Crisper system
Increase your refrigerator's storage flexibility and keep fruits and vegetables tasting great with the EasyView™ Triple Crisper system. Now you can easily see and access produce with full crisper drawer visibility. Plus, organize a wide variety of items with three drawer options. Automatic humidity control also helps maintain freshness.

Electronic ice and water dispenser
Dispenses filtered water on the outside of the refrigerator. A control lock feature prevents unintended operation. Select dispensers include an automatic LED night-light that adjusts brightness as the kitchen goes dark.

ENERGY STAR® qualification
Exceeds government standards by over 20% to help conserve natural resources and save money on utility bills.

EZ Connect icemaker
This optional icemaker makes adding easily accessible ice to select top-freezer refrigerators simple.

Fast Cool option
Quickly lowers the refrigerator's temperature at the push of a button. Select Fast Cool after filling your refrigerator with groceries to quickly cool fresh food.

Fast Freeze
Drops the freezer's temperature as low as it can go in the shortest amount of time. Activate Fast Freeze just before adding large amounts of unfrozen food.

Fast Ice
Drops the freezer temperature in select models for a full 24 hours to increase ice production by over 30%.*

Freezer divider
Easily customizes freezer storage and organizes frozen food using the moveable freezer divider bin.

FreshFlow™ air filter
This smart air filter is up to 15 times more effective than baking soda in reducing common food odors. Replace the filter every 6 months for optimal performance.

FreshFlow™ produce preserver
Helps keep produce fresh longer.** A cartridge absorbs ethylene gas that causes fruits and vegetables like lettuce and cantaloupe to over-ripen more quickly. Replace the filter every 6 months for optimal performance.

*Compared to normal ice production, select models only. **Based on commonly purchased produce.

Glossary

FreshStor™ refrigerated drawer
Put frequently used items in easy reach with a true refrigerated drawer. It features temperature controls that let you make adjustments based on which refrigerated items you'd like to store—from fresh produce to cold drinks. The full extension drawer and dividers also make it easy to organize and find what you need quickly.

In-Door-Ice® system
This innovative system moves the ice bin to the door, creating room for an extra shelf in the refrigerator compartment. A removable, clear ice bin lets you fill coolers with ease.

In-Door-Ice® Plus system
By placing the icemaker and removable ice bin in the door, this system creates 30% more usable space in the freezer.† The ice bin is also easily removed for portable ice any time.

LED interior lighting
LED lighting puts a spotlight on food and casts a more natural light on the contents of your refrigerator so food looks as it should.

Measured Fill
Allows you to select the exact amount of filtered water—in ounces, cups or liters—that you need. The dispenser will fill the container and automatically shut off when complete.

MicroEdge® spill-control shelf
This industry-exclusive innovation gives you 25% more usable shelf space.†† Each shelf helps create wall-to-wall storage and makes cleaning inside the refrigerator easier than before.

No-slip door bin mat
Keeps items stored in the door bins in an upright position. The mats are removable for easy cleaning.

Panoramic LED lighting
Panoramic LED lighting makes finding items in your refrigerator easier by surrounding food with light. By placing lights throughout the refrigerator, shadows are reduced from every angle.

Pizza Pocket
Easily stores frozen pizzas upright in select french door refrigerator's freezers, without the hassle of trying to fit them on flat freezer shelves.

PUR® water filtration system
Reduces contaminants from household water, giving you chilled, filtered water from your refrigerator for up to 6 months. Our new PUR® water filtration system found on select models can save you up to $600 a year instead of buying bottled water.‡

Satina™ finish
Resists fingerprints for a smooth, glossy appearance, giving your kitchen a touch of style with everyday practicality. Accepts magnets and requires no special cleaners.

Satina™ Steel finish
Available on select models, the Satina™ Steel finish provides a look that is even closer to true stainless steel. It cleans easily without special products, resists fingerprints and is magnetic.

SideKicks® upright models
Place the refrigerator and freezer models side by side and get up to a combined 36 cu. ft. of storage for all your favorite foods. Both models feature gallon door bins and are ENERGY STAR® qualified.

SpillGuard™ glass shelf
Helps contain spills and simplifies cleanup, preventing liquids from leaking onto shelves below. Some models feature shelves that are adjustable and slide out, providing easy access to items stored in the back of the refrigerator.

SpillMizer™ glass shelf
Helps contain messy leaks and spills for easier cleanup. Shelves are both adjustable and transparent.

Tap Touch controls
This innovative interface featured on select models brings high-tech style to your kitchen. It allows direct access to refrigerator functions, and its sleek appearance enhances the appeal of any space.

Temperature-controlled pantry
A full-width temperature controlled pantry features a wide opening and holds large items like deli trays and sheet cakes.

Tilt-N-Go specialty bin
Great for condiments or a carton of eggs, this specialty bin holds items securely and can be removed from the refrigerator door and placed on the table or counter.

Tri-freezer system
Two upper sliding drawers and a spacious lower basket make organizing frozen food easy. Plus, easily customize freezer storage and organize frozen food with the moveable freezer divider bin.

Triple Crisper system
Increases storage flexibility with two larger crispers with humidity controls and a center, smaller crisper.

†Compared to 26 cu. ft. Whirlpool® models with conventional icemakers. ††Compared to Whirlpool® side-by-side or french door models without MicroEdge® shelves. ‡Based on average use of two 6-month, 200-gallon water filters versus purchasing the same amount of a leading bottled water brand.

FREESTANDING RANGES

Boils 6 liters of water in 50% less time*

Select ranges feature a cooktop with AccuHeat™ induction technology. It lets you cook with less time, less energy and more precision.** This advanced technology offers easier cleaning and efficient cooking by transferring energy directly into any cookware with magnetic bases.

Bakes evenly and seals in flavors on every rack

The AccuBake® temperature management system monitors oven temperature and controls the cooking elements, delivering consistent results every time. Our most advanced models feature TimeSavor™ Plus true convection that uses a rear fan and a third heating element to seal in flavors and juices on every rack.

Innovative oven cleaning

AquaLift® self-clean technology, available on single cavity freestanding ranges, offers easy and odor-free oven cleaning in only 50 minutes.† As our most energy-efficient self-cleaning cycle available,†† it releases baked-on foods from an innovative coating throughout the oven without harsh chemicals.

More room with a view

Check on cooking progress without opening the door with the EasyView™ extra-large oven window, the industry's largest window available.‡

NOTE: Not all features are available on all models.

*Based on boiling 6 liters of water with 11" 3,700-watt induction element versus 12,500-BTU gas burner. **Compared to conventional electric radiant cooktops. †Based on average cleaning time of self-clean cycle with water and moderate soils. ††Versus traditional self clean cycle. ‡Based on interior viewable window of leading brand freestanding ranges.

WOD93EC0AH

WALL OVENS

Seals in flavors and bakes evenly

TimeSavor™ Ultra true convection uses a rear fan, a third 2,500-watt heating element and an innovative X-shaped baffle to distribute heated air more efficiently in four directions. The AccuBake® system also surrounds food with even temperatures to achieve consistent results every time.

Cleans easily

The SteamClean option makes cleanup easy. It spot cleans everyday light spills using only heat and 1-1/4 cups of water—no harsh chemicals or cleaners needed.

Easy-to-install sophisticated design

Replacing your wall oven just got easier. With the FIT system, your wall oven can fit seamlessly into your current cabinet cutout.* This sleek finish is complemented by modern handles and color options that add a sophisticated look to any kitchen.

Largest capacity wall oven available**

Cook multiple dishes for a large family meal or prepare treats for a bake sale with double oven capacities of up to 10.0 total cu. ft. Now there's plenty of room to handle even your largest cooking tasks.

NOTE: Not all features are available on all models.

*Available on 27" and 30" double and single wall ovens. See product specifications for minimum and maximum installation dimensions.

COOKTOPS

Offers flexible cooking options

Select gas cooktops feature a 17,000-BTU Flex Power™ burner that achieves high heat to quickly boil water. You can also simmer, sear and melt quickly and easily with the 30" electric cooktop with five elements and features like triple radiant elements and bridge elements.

Precise temperature control

Master your most delicate dishes with the precise temperature control from AccuSimmer® elements and burners. You can also easily melt butter, cook custards and simmer sauces. The AccuSimmer® Plus element offers accurate control, reaching lower temperatures.

Delivers innovative AccuHeat™ induction technology

Select cooktops feature AccuHeat™ induction technology and transfer energy directly into cookware with magnetic bases. Now our most energy-efficient cooktops ever offer faster, more energy-efficient cooking. And since the cooking surface cools down fast, spills won't bake onto it.

Boils water in up to half the time*

The Boost function dramatically increases power for greater cooking flexibility and immediate responsiveness. Faster boiling helps you prepare pasta, soup and water for tea more quickly. You'll even sauté and fry faster, too.

NOTE: Not all features are available on all models.

*Compared to boiling 3.6 liters of water with a traditional 9" 2,500-watt radiant element or a 12,500-BTU gas burner.

WMH53520AE

MICROWAVES

Adjusts cooking time for optimal results

With the push of a single button, Sensor cooking tracks the progress of your food. It automatically adjusts cooking time as needed so you won't have to micro-manage your microwave.

Senses cooktop heat

Select Whirlpool® microwaves automatically adjust fan speed by sensing cooktop heat. Models with the Auto Adapt fan also offer variable fan speeds so you can match the right amount of ventilation to the dish being prepared.

Seals in flavors and juices

TimeSavor™ Plus true convection cooks food evenly with juicy, flavorful results. It uses a rear fan to circulate preheated air over, under and around food.

Convenient steaming

Enjoy flaky fish, tender vegetables and fluffy rice quickly and easily with Steam cooking. Now you can steam in the microwave using the available steamer accessory for delicious, healthy meals.

NOTE: Not all features are available on all models.

Accessories

affresh® Stainless steel wipes (W10355049)

Disposable wipes gently clean fingerprints, smudges and residue to leave a streak-free, polished shine. Contains 35 use and toss wipes. Size 7" (H) x 9" (W).

affresh® Cooktop cleaner (W10355051) and Replacement Scrubbing Pads (W10391473)

Cuts through tough, baked-on residue. Safe for all glass and ceramic cooktops. Replacement pads used to remove light soil or water spots, 20-pack.

affresh® Stainless steel cleaner (W10355016)

This spray cleaner gently cleans fingerprints, smudges and other residue from Stainless Steel surfaces to leave a streak-free, polished shine.

affresh® Kitchen & appliance cleaner (W10355010)

This spray cleaner cuts through everyday spills to leave a streak-free shine. Easily cleans inside refrigerator and microwave ovens. Now with a fresh, citrus scent.

Gourmet Griddle (4396096RB)

An easy-to-clean, non-stick griddle for electric coil, gas and ceramic glass ranges. Place over two elements or burners for great grilled sandwiches or other dishes.

Microwave Crisper Pan (W10187336A)

Prepare crisp bacon, potatoes or pizza in the microwave with this pan. 12-1/4" (Diameter) and 1-1/2" (Deep).

Baking Stone (4378577)

This 13" baking stone evenly distributes heat and moisture for lighter, crispier food. Suitable for use in regular, convection and microwave ovens.

Universal Microwave Steamer (8205262RB)

Works in tandem with the steaming function to conveniently steam foods such as rice, vegetables and fish with fresh, pleasing results. 13-3/4" (H) x 8-1/2" (W) x 5-1/4" (D).

30" Range Oven Rack (W10273852A)

Replace a standard cooking rack in Whirlpool® double oven ranges with this roll-out rack. Its easy-gliding design makes it simple to retrieve dishes from a hot oven.

Offers enough strength to support two 16-lb turkeys.

Oven Cleaning Kit
Retail polybag: W10423113RP
Retail box: W10510627RB
Factory Certified Parts polybag: W10432017BU

Offers everything you need to clean both gas and electric ovens featuring Aqualift® self-clean technology. Includes (1) scraper, (1) scrubbing sponge and (1) expanding sponge.

Heavy Duty Sliding Rack
30" Wall Ovens: W10282973A

Glossary

AccuBake® temperature management system
Achieve uniform baking results every time with the AccuBake® temperature management system. A built-in sensor monitors oven temperature and controls the cooking elements to deliver consistent, delicious results every time.

AccuHeat™ induction technology
Faster, more efficient cooking is available on select freestanding ranges, cooktops and the industry's first induction double oven freestanding range.* AccuHeat™ induction technology only heats cooking surfaces by transferring energy directly into any cookware with magnetic bases.

AccuSimmer® burner/element
Delivers precise temperature control that is perfect for simmering sauces and soups. Select models feature an AccuSimmer® Plus element that offers more control and reaches your cooktop's lowest temperatures.

AccuSimmer® cycle
Quickly boils liquids in the microwave, then automatically reduces the heat to a delicate simmer to avoid splatters.

AccuWave® power system
Evenly cooks, defrosts, reheats, softens and melts with constant, gentle heat. Thaw chicken without cooking the edges and reheat sauces without splatters.

Add 30 Seconds option
Quickly set the microwave to cook for 30 seconds at 100% power by pressing this button. Or, press it to add 30 seconds to a manual setting that is already in progress.

Adjustable split rack
Remove the rack insert to make room for large items like a turkey or attach it to make a full rack. The insert can also be used on the counter as a cooling rack.

Adjustable time self-cleaning system
Allows for adjustment of the self-clean time in 15-minute intervals, according to your needs.

AquaLift® self-clean technology
Delivers easy, odor-free oven cleaning in only 50 minutes.** Our most energy-efficient self-cleaning cycle available† releases baked-on foods from the bottom of the oven without harsh chemicals or cleaners. When the cleaning cycle is complete, soils and excess water can be easily removed with a dry towel.

Auto Adapt fan
Automatically adjusts fan speed on microwave hood combinations by sensing cooktop heat.

Bridge element
Increases cooking options via a 700-watt bridge element that connects two heating elements. Evenly heat large or oblong pans more easily on the cooktop.

Center griddle
Allows you to warm tortillas, make pancakes or sear fish with a built-in, center griddle.

Ceramic glass cooktop
Withstands intense heat while resisting cracking or chipping, preserving the sleek look of your cooktop for years to come.

CleanRelease® non-stick interior
Reduces cleanup effort because of the non-stick interior—an industry first. No special cleaning solutions are required.

Control Bake
This baking mode keeps the broil element turned off, preventing the tops of your food from overcooking, so pies and turkey come out just right.

Control lock
Disables the control panel to avoid unintended use or other changes to your cooking settings.

Convection Conversion
Removes the guesswork from preparing your favorite dishes by automatically converting standard times and temperatures to the convection equivalent.

Convertible ventilation system
Provides added installation flexibility by venting odors outside or recirculating them, depending upon your preference.

Crisper pan with handle
Provides the ideal cookware for pan-frying foods like bacon or potatoes in the microwave. The patented, non-stick design makes cleanup easy.

Custom Broil
Allows you to set your preferred broiling temperature in 5-degree increments. High heat is best for grilling meats, while low heat is ideal for delicate tasks like melting cheese on lasagna.

Delay Bake
Lets you program the oven to begin cooking at a pre-set time. Prepare food for baking when it's most convenient for you and have dinner ready according to your schedule.

Downdraft vent system
Pulls steam, smoke and odors downward and outside to help clear kitchen air. Conveniently built into select cooktops.

---

*Among conventional double oven ranges with dual bake and broil elements. **Based on average cleaning time of self-clean cycle with water and moderate soils.
†Versus traditional self clean cycle.

Glossary

Dual and Triple radiant elements
Provides the space-saving advantage of having two or three elements in one to handle various sizes of cookware. The inner ring is perfect for simmering or quickly boiling water in small pans. The larger outer ring evenly distributes heat to larger pots and pans for better results.

Eco-friendly ceramic glass cooktop††
Withstands intense heat while resisting cracking or chipping, preserving the sleek look of your cooktop for years to come. The easy-to-clean surface is manufactured without the release of hazardous metals into the earth.

Energy Save mode
Similar to the sleep mode on a computer, the Energy Save feature uses less energy compared to ranges without Energy Save. It can be activated to turn off the display after 5 minutes of the range not being used. Press any button and the display becomes active again.

EZ-Vue™ lighting
Provides illumination above the range according to your preference with three brightness settings, including a night-light option. Bulbs change out easily when a replacement is needed.

Filter change indicator light
Informs you when it's time to change the microwave hood combination filter so air stays fresher. No more guessing about when you need to change a filter.

FIT system
Now your wall oven can fit seamlessly into your current cabinet cutout‡ with this flexible installation system. It provides various options that are designed to effortlessly suit your decor.

Flex Power™ burner
A 17,000-BTU Flex Power™ burner generates the high heat needed for rapid boiling and searing and provides uniform cooking at lower temperatures for your most delicate dishes, making this our most flexible burner ever.

Frameless door design
Permits easy exterior cleaning with a flat, frameless panel. No nooks or crannies to catch crumbs.

Full-width, cast-iron grates
Offers a smooth design for easy cleaning by hand or in the dishwasher. The grates cover the entire cooktop surface, creating the flexibility to place pots and pans anywhere, while the smooth satin finish resists wear and tear.

Grill rack
Provides the ideal setup when using the grill function of a SpeedCook oven or microwave hood combination, allowing you to place food closer to the grill element for faster cooking. Steaks look and taste as if they were cooked under the oven broiler but are ready in less time.

Hidden bake element
Simplifies cleanup with the bake element hidden beneath the oven floor, leaving a smooth interior surface that is easy to wipe clean.

High-speed coil element
Heats up quickly to provide high temperatures for boiling and frying. Chrome drip pans below catch spills for easy cleanup.

Hot surface indicator
Illuminates when the cooktop surface is still hot to the touch—even after the heating element has been turned off.

Infinite heat controls
Allow for smooth movement of temperature settings, from low to high. Adjust the heat up or down according to your cooking needs.

Kids Menu
Cooks a variety of child-friendly food with preprogrammed cycles that are activated by the simple push of a button. With menu selections like hot dogs and chicken nuggets, children can easily prepare their own pre-game dinners or after-school snacks.

Large/EasyView™ extra-large oven windows
Provides better visibility of the oven interior with a large oven window. Monitor cooking progress without opening the door, keeping oven temperatures steady and undisturbed. Select wall ovens and freestanding ranges feature the EasyView™ extra-large oven window for greater visibility when cooking.

LP Convertible
Can be converted from natural gas to a liquid petroleum fuel source.

Max Capacity recessed rack
Makes room for large items and helps keep food in place while baking.

Melt/Soften cycles
Gently melts foods such as chocolate without cooking (Melt Cycle); gently softens food such as butter without melting (Soften Cycle).

Microwave steamer
Works in tandem with the steaming function to conveniently steam foods such as rice, vegetables and fish with fresh, pleasing results.

Modular cooktop
Allows you to customize the cooking surface according to your needs with gas burners, grill modules and griddle modules.

Most Used cycle
Saves time by remembering and activating your most frequently used Velos® SpeedCook cycle with the simple press of a button.

No Drip chrome drip bowl
Keeps cooking cleanup to a minimum and keeps spills from getting under the cooking surface.

---

††Glass cooktop surface manufactured without the release of hazardous metals into the earth.
‡Available on 27" and 30" double and single wall ovens. See product specifications for minimum and maximum installation dimensions.

Glossary

One touch bake and broil
Automatically sets the oven to 350°F when the "Bake" button is pushed and 500°F when the "Broil" button is selected.

Oval burner
An elongated central burner that can match oval-shaped pans and other longer cookware. Ideal for cooking oversized dishes on the range top.

Oven Hold Warm/Warm Hold/Keep Warm
Uses low heat to keep food warm inside the oven or microwave, so you can keep completed dishes from getting cold while you work on the rest of your meal.

Pop-up downdraft vent
Variable fan speeds make adjusting the ventilation easy for every situation. Retracts when not in use.

Power™ burners
Generate the high heat needed for rapid boiling, searing and frying with burners that offer up to 17,000 BTUs.

Power "On" indicator
Provides an illuminated reminder that the cooktop is turned on.

Precise Clean® system
Tracks how long it has been since the last self-cleaning cycle and suggests just the right cycle time, so the self-cleaning cycle only lasts as long as necessary for optimal cleaning. No harsh chemicals or cleaners are required.

Preheat countdown timer
Keeps track of how long the oven will take to reach the desired baking temperature with a display that counts down the required time or temperature.

Rapid Boil element
Create your everyday favorite dishes with a flexible cooking element that has the power to take your dishes from an accurate simmer to a rolling boil.

Rapid Preheat option
Preheat the oven 25% faster* with Rapid Preheat. Ideal for single rack baking, this option saves cooking time and energy.

Recessed cooktop
Provides a more aesthetically pleasing profile by lowering the level of the grates.

Sabbath Mode
Overrides the oven's automatic shut-off function, keeping it active for hours of uninterrupted cooking, making it possible to use the oven on the Sabbath without turning it on.

Sealed burners
Cleans up quickly after cooking is complete. No gap between the cooktop and these burners makes for a smooth surface that's easy to clean.

Self-cleaning system (traditional)
Automatically cleans the oven according to a preprogrammed cycle. No harsh chemicals or cleaners are required.

Sensor cooking
Tracks the progress of your food and automatically adjusts the cooking time as needed to deliver optimal results

SpeedCook technology
Cuts cooking time by up to 47% compared to traditional ovens. Microwave technology works with halogen and quartz light energy to grill steaks and bake brownies with real oven results.

SpillGuard™ cooktop
Helps contain messes and makes cleanup easier with the raised-edge design.

Split rack
Remove the rack insert to make room for large or tall items, or attach it to make a full rack.

Staged cooking
Allows you to custom program multiple power levels and cooking durations without keeping watch over the microwave. Ideal for dishes requiring temperature changes mid-cooking, like frozen entrees.

SteamClean option
Clean up every day light spills using heat and only 1-1/4 cups of water—no harsh chemicals or cleaners needed.

Steam cooking
Conveniently steams foods such as rice, vegetables and fish in conjunction with the patented microwave steamer.

Tap Touch controls
Provide a sleek, sophisticated look that is easy to clean. Cooktop controls can be set with a simple touch.

TimeSavor™ convection
Uses a fan in the back of the oven to distribute hot air more efficiently for crispier, juicer and tastier results.

*Single rack baking with Rapid Preheat option versus three-rack without option.

Glossary

TimeSavor™ Plus true convection
Uses a fan plus a third heating element in the oven or microwave to distribute hot air more efficiently and seal in flavor and juices on every rack. Select microwaves use a rear fan to also cut roasting time compared to traditional thermal-bake ovens.

TimeSavor™ Ultra true convection
TimeSavor™ Ultra true convection uses a rear fan, a third 2,500-watt heating element and an innovative X-shaped baffle to distribute heated air more efficiently in four directions.

Touch screen controls
Features dozens of step-by-step directions on a digital display for simple, accurate cooking in the microwave.

TruCapture® ventilation system
Removes cooktop smoke, steam and odors from the front two burners with a powerful 4-speed fan and unique, sloped design that vents out the top instead of the front of the unit. Whirlpool brand's most efficient ventilation system.

Velos® SpeedCook oven
Microwave hood combination oven that grills, bakes, steams, microwaves and vents, featuring SpeedCook technology as well as the TruCapture® ventilation system.

Warming drawer
Keeps food and dinnerware warm in a separate, heated drawer. Multiple temperature settings provide flexibility and help ensure that food done ahead of schedule doesn't get cold before the entire meal is ready to serve.

Warm Zone element
Prevents food from cooling while the rest of the meal is being prepared. This low-powered (20–100 watt) fifth element provides added flexibility and convenience.

Washable filter
Dishwasher-safe filters trap unwanted grease and odors and wash easily for re-use.

DISHWASHERS

Takes the guesswork out of doing dishes

The Sensor cycle automatically selects the right wash and dry settings using two sensors that measure temperature, soil level and load size. It cleans tough soils 35% better* using the right amount of time, energy and water.

Makes washing large items easy

With features like the EZ-2-Lift™ adjustable upper rack and EZ Adjustable tines, you'll be able to take advantage of the large 15 place-setting capacity available on select Whirlpool® dishwashers.

Cleans without soaking or scrubbing

The enhanced PowerScour™ option uses 40 targeted spray jets in a designated wash area to scour away baked-on foods and deliver twice the coverage to clean your large pots and pans.

Uses less water and energy without compromising performance**

Not only do Whirlpool brand dishwashers use less water and energy to meet the CEE Tier 1† standard, but no one has fewer repairs 17 years in a row.†† Using our innovative resource-efficient wash system, these ENERGY STAR® qualified models will even save money on utility bills.

NOTE: Not all features are available on all models.

*Compared to previous wash system. **Compared to a conventional dishwasher manufactured before 2006. †Based on the Consortium for Energy Efficiency qualifying product lists. Visit cee1.org for more information. ††According to a leading consumer magazine.

Accessories

Small Items Basket (3370993RB)

Fits all Whirlpool® dishwashers. It holds baby items, jar lids and other small utensils that would normally slip through the dishwasher rack.

Swivel Gooseneck Fitting (W10574777)

Space-saving 90° design makes this ¾" x ⅜" elbow hose fitting perfect for easy dishwasher installation. A ⅜" brass compression fitting is included. Required on dishwashers produced after 2009.

12' Drain Hose (Tall Tub-3385556)
12' Drain Hose (NEW-8531858)
6' Drain Hose (8269144A)

This flexible drain hose for tall tub dishwasher models offers a no-kink design made for hot water.

Small Items Bag (8519716)

Holds extra-small utensils, contact cases and other small items that would normally slip through the dishwasher rack.

6', 3-Prong Dishwasher Power Supply Kit (W10278923RP)

This straight, 6', 90° UL-listed power cord kit fits dishwashers from most major brands and includes a power cord, metal strain relief bracket, wire nuts and instructions.

Undercounter Mounting Kit (W10426979)

Works with all standard size dishwashers. Can be used with solid surfaces, including granite.

NEW! affresh® Disposal cleaner (W10509526)

Foaming action works to loosen food and organic material to clean and deodorize. Carton contains 4 tablets.

affresh® Dishwasher Cleaner (W10282479)

Powers away hard water mineral residue and is Designed for the Environment.* Pouch contains 6 tablets.

Design for the Environment U.S. EPA

Dishwasher Rack Repair Kit
White: 4396838RC
Black: 4396839RC
Grey: 4396840RC

This kit has everything you need to repair your dishwasher rack tines. It contains 150 tine tips, a 4-oz bottle of vinyl touch-up paint/adhesive with a brush and instruction sheet.

5', 3-Prong Dishwasher Power Cord (4317824)

Take home everything you need to bring power to your dishwasher with the UL-listed power cord, strain relief, wire nuts and installation instructions.

To acquire pricing information, order Whirlpool® dishwasher accessories and determine delivery time, visit whirlpool.com/accessories or call 1-800-462-3819.

**Stainless steel tall tub models only. †Trim Kit accommodates both a framed and frameless custom panel design.
6" custom panels for models WDF310PAA and WDP350PAA are not available at this time.

Glossary

1-Hour Wash cycle
Thoroughly cleans your dishes in nearly half the time.* This hour-long cycle helps you take care of dirty dishes when you are in a rush.

ADA height and reach compliant
Select dishwashers with this designation meet ADA height and reach requirements and must be installed in compliance with Americans with Disabilities Act Standards.

Adjustable upper rack
Manually raise or lower the upper rack to better fit tall items.

AnyWare™ Plus silverware basket
Designed to clean better and fit in four places for maximum flexibility, the AnyWare™ Plus silverware basket rests on two locations in the bottom rack, the front of the lower rack or in the door for 100% usable rack space.

Auto soil sensor
Optimizes every cycle for reliable cleaning results. This sensor measures water clarity to determine how dirty dishes are, then adjusts the cycle accordingly. It measures the soils in the water and will add extra water and adapt temperature to ensure clean dishes.

CEE Tier standards
Based on the Consortium for Energy Efficiency (CEE) qualifying product lists—with the Tier 1 standard being the most efficient. Visit cee1.org for more information.

Clean & Quiet Guarantee
If you are not completely satisfied that your new Whirlpool Gold® dishwasher is quieter and cleans better than your previous model, Whirlpool Corporation will take it back within 30 days of the date of purchase and refund the full price to you. Visit whirlpool.com for complete details and qualified models.

Clean Touch™ console
Select Whirlpool® trash compactors feature a smooth console with no dials or switches that cleans easily.

Control lock
Disables buttons on the control pad to help prevent accidental operation or children from starting or stopping the dishwasher.

Cup shelf
Allows you to stack two levels of coffee mugs or small cups and to secure delicate glassware when used as a stemware holder in the upper rack.

Delay Wash option
Wash dishes according to your schedule. This option lets you delay washing for up to 8 hours until off-peak hours when utility rates may be lower.

Easy Rollers™ installation wheels
Easily position your Whirlpool® compactor where you need it with the Easy Rollers™ installation wheels.

Eco Dry option
The industry's first Eco Dry option is the most efficient drying option on our dishwashers** because it uses 70% less energy compared to using Heated Dry.

Eco Wash cycle
Our most efficient dishwasher cycle helps minimize energy and water usage while cleaning dishes.** It is great for cleaning lightly to moderately soiled dishes.

ENERGY STAR® qualified
Exceeds government standards to help conserve natural resources and save money on utility bills.

EZ-2-Lift™ adjustable upper rack
Easily adjust the upper rack 2" up or down to fit larger items in either rack. Improved to allow for 100% usable upper rack space, our easiest to adjust rack can be lifted or lowered to accommodate different size items and features narrow profile adjusters that don't interfere with loading.

EZ Adjustable tines
Innovative sliding lower-rack tines move left or right to fit your dishes. Now you have twice the space between tines to fit larger bowls for optimal cleaning.

Fold-down tines
Secure dishes during the wash cycle or fold down to create space for larger items.

Fully integrated controls
Add a modern accent to your kitchen with a control panel that's hidden away and provides a sleek exterior while preventing unwanted cycle changes or accidental operation.

Heavy cycle
Adds more time to the cycle to clean heavily soiled items.

NOTE: Not all features are available on all models.

*Compared to Normal cycle with lightly soiled loads. **Available on Whirlpool® models MSRP $449 and above.

Glossary

High Temperature Wash option
Choose this option when additional cleaning of items like baby bottles, glassware or dishes is required.

Light item clips
Secure lightweight items during the wash cycle and help prevent items from falling out of the rack. They also stop cups and other small containers from flipping over and filling with water.

Normal cycle
Use for loads with normal amounts of food soil. This cycle is great for everyday loads.

Nylon racks
Durable nylon coating helps resist rust and prevent scratching.

Overnight cycle
This industry-exclusive cycle quietly soaks your dishes with an extended prewash and then runs a tough soil wash to clean dirty dishes.

PowerScour™ option
The PowerScour™ option uses 40 targeted spray jets in a designated wash area to scour away baked-on foods without soaking or scrubbing. From casserole dishes to pots and pans, this option delivers twice the coverage to clean large items.

Quiet Partner™ sound packages
Whirlpool brand dishwashers offer many levels of sound-reducing insulation. The Quiet Partner™ IV sound package is the highest available.

Resource-efficient wash system
Efficiently cleans a full load of dishes using nearly half the water and energy.† This system provides excellent cleaning first in the upper rack, then the lower, to reduce the amount of water used.

Sani Rinse option
Sanitizes dishes by eliminating 99.999% of food soil and bacteria.

Sensor cycle
Automatically selects the right wash and dry settings for your load by using two separate sensors to measure temperature, soil level and load size once during the prewash and once during the wash cycle. It cleans tough soils 35% better†† using just the right amount of time, energy and water.

SheerClean™ wash system
Channels water up and out of the back and top of the dishwasher to powerfully clean from multiple angles. The filter keeps wash water clean and delivers sparkling-clean dishes.

Slate interior
Reduces the appearance of visible tub stains, wash after wash. Sophisticated slate styling gives the dishwasher an attractive, premium look.

Soak & Scour option
Gently soaks, powerfully cleans and then soaks again to remove tough soils from dishes so you don't have to.

Stainless steel interior
Retains heat from wash and rinse cycles to promote drying. The stainless steel interior also cools faster than the dishes, allowing moisture to condense on the interior walls and drawing additional water off the hotter dishes.

Tall tub design
Allows you to load tall and odd-shaped items in both racks. An additional 3" of interior space compared to standard tub models makes room for extra-large items in the lower rack and plates or sports bottles in the upper rack.

Top Rack Wash option
Save time and energy with the Top Rack Wash option. It washes the top rack of dishes, so you don't have to wait for a full load to wash a few items.

Touch-Toe™ drawer opener
Easily open Whirlpool® trash compactors without your hands using the Touch-Toe™ drawer opener. A light tap of the toe is all that's needed to release the drawer.

NOTE: Not all features are available on all models.

†Compared to dishwashers manufactured before 2006. ††Compared to previous wash system.

⚠ WARNING

Electrical Shock Hazard
Disconnect electrical power at the fuse box or circuit breaker box before installing dishwasher.
Failure to do so can result in death or electrical shock.

Electrical requirements

Rated load is 11.0 amps, 120 volts, 60 Hz AC.

15-amp (20-amp max) circuit required.

When local codes permit, any Whirlpool® dishwasher plus a disposer up to 7.2 amps can be installed on a single 20-amp circuit. Do not use an extension cord.

Water Pressure — 15 to 120 psi.

Recommended incoming water temperature — 120°F minimum.

Listed by Underwriters Laboratories.

*Based on the Consortium for Energy Efficiency qualifying product lists. Visit cee1.org for more information. **Per IEC standards.
††Visit whirlpool.com for complete details and qualified models.

DIMENSIONS ARE SHOWN FOR PLANNING PURPOSES ONLY.

HIGH EFFICIENCY FRONT LOAD LAUNDRY

Colors stay vibrant

Adaptive Wash technology automatically senses and adapts to the size of each load and uses just the right amount of water to deliver great cleaning. It delivers better cleaning performance* and gentleness by combining Precision Dispense, 14 adaptive wash actions and the Care Control temperature management system.

Adds the detergent for you

Precision Dispense Ultra senses and adapts to each load, adding detergent, bleach and fabric softener at just the right time during the cycle. The removable detergent reservoir can hold enough detergent for up to 12 loads of laundry in a single filling.**

Washes and dries small loads right in the washer†

When the FanFresh® option with Dynamic Venting Technology® is activated, select models automatically tumble clothes for up to 12 hours until you're ready to toss them in the dryer.

Automatically stops when items are perfectly dry

Stop shrinking and save time and energy with Advanced Moisture Sensing. Three active built-in sensors read incoming and outgoing air temperatures and monitor moisture levels inside the dryer, while adapting the drying level to prevent overdrying.

NOTE: Not all features are available on all models.

*Compared to traditional top load washers. **Based on 2X concentration of HE detergent. †Based on a 2-lb load of lightweight fabrics.

HIGH EFFICIENCY TOP LOAD LAUNDRY

Colors stay vibrant

Adaptive Wash technology automatically senses and adapts to the size of each load and uses just the right amount of water to deliver great cleaning. It delivers better cleaning performance* and gentleness by combining Precision Dispense, 11 adaptive wash actions and the Care Control temperature management system.

Saves over $3,300 in lifetime energy costs**

Save time, money and energy with an ENERGY STAR® qualified washer and high-efficiency dryer. These laundry pairs more than pay for themselves** while using less water and electricity.

Wash more than three baskets of laundry in one load

Take care of all your laundry needs with a washer and dryer that's designed to handle large loads. Wash multiple baskets of laundry inside the 4.8 cu. ft. washer. Then transfer your laundry to the 7.6 cu. ft. dryer that easily adapts to both small and large loads for optimal fabric care.

Stops drying when items are ready

Whirlpool brand brings high efficiency to the dryer with Advanced Moisture Sensing and the AccuDry™ sensor drying system. Stop shrinking and save time and energy with HE Cabrio® dryers that monitor moisture levels and end the cycle when everything is dry.

NOTE: Not all features are available on all models.

*Compared to traditional top load washers. **Compared to pre-2004 traditional top load washers and dryers, based on average use, using normal cycle, 11-year average washer life and 12-year average dryer life, electric models only.

WTW4900BW & WE/GD4850BW

TRADITIONAL TOP LOAD LAUNDRY

Saves water and energy

Whirlpool® traditional laundry pairs not only feature a new and improved design, but they also include ENERGY STAR® qualified washers. Select models with Adaptive Wash technology even meet the CEE Tier 3* standard.

Tracks progress

All Whirlpool brand traditional washers let you clearly see which part of the cycle your washer is running, including Sensing, Wash, Rinse, Spin, Done and Lid Lock.

Gently lifts stains

The Deep Water Wash cycle helps break down loose soils, while the Cold Wash cycle gently lifts stains and soils from fabrics. It uses adaptive wash actions, a concentrated solution of HE detergent and cold water to deliver great cleaning and protect fabrics.

Uses less energy

The AccuDry™ sensor drying system uses less energy than dryers equipped with the AutoDry™ system,** helping to lower your monthly electric bills. The sensor drying system reduces overdrying by monitoring moisture levels and temperatures.

NOTE: Not all features are available on all models.

*Based on the Consortium for Energy Efficiency qualifying product lists. Visit cee1.org for more information. **Electric models only.

Traditional Top Load Washers

WTW4800B 3.6 cu. ft. Q

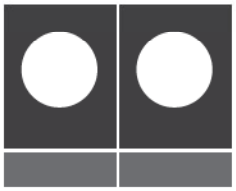
Duet® Laundry Pair Installation

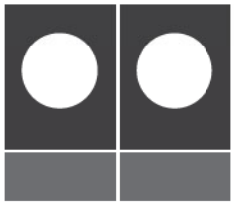
INNOVATIONS THAT FIT YOUR LIFE AND HOME

The best-selling laundry appliance brand in the U.S.A.* offers washers and dryers that are carefully crafted to fit seamlessly into your life and home. Innovative features help get you out of the laundry room and back to doing what you love to do. Our 27" design fits through doors and hallways so you don't have to dismantle the home you're trying to complete.

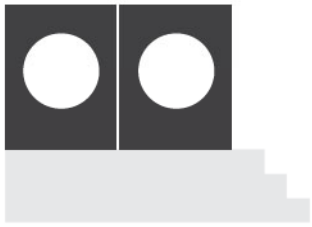
Models: Duet® washer WFW96HEAU and Duet® dryer WE/GD96HEAU with optional 15.5" pedestals XHPC155YU



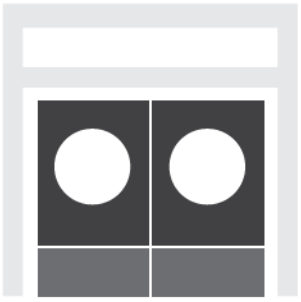
Use 10" pedestals to place doors at the best height for customers shorter than 5'4" tall.



Add 15.5" pedestals to place doors at the best height for customers 5'4" or taller.



Superb vibration control systems mean upstairs installation is always possible.



Installation in a standard closet places the laundry area close to living spaces. Even in a closet, full-sized pairs may be stacked or placed side-by-side with or without pedestals.

When stacked,** the dryer controls are still at a comfortable height. Plus, a direct water hookup for the steam dryer means no reservoir to fill.

*Traqline, 2013. **Requires stack kit, see page 210 for accessory information.

Laundry 1-2-3™ Pedestals

Using height as a guide, choose the recommended pedestal while also taking into consideration the height of any cabinets above your laundry pair.

Height	Recommended Pedestal	Approx. Height with Pedestal
5'4" and up	15.5"	53.5"
Under 5'4"	10"	48"

LAB0050P Q

Accessories

affresh® Washer Cleaner (W10135699)

Effectively remove odor-causing residue in all washers. Keeps your machine fresher and cleaner when used monthly. Contains 3 pucks.

Precision Dispense HE Detergent Dispenser (W10250743A)

Adds the right amount of detergent at the right time during the cycle. Extra dispenser provides flexibility in changing detergent.

Washable Delicates Bag (W10180464RP)

Protect delicate items from snags, tangles and tears while machine washing and drying. 15-1/2" (L) x 16-1/2" (W).

Laundry 1-2-3™ Adjustable Clothes Rack (XHS1000XX)

Hang garments straight from the washer or dryer with this clothes rack. It's also collapsible for quick, easy storage.

Industrial-Grade Washer Hoses
8212638RP: (2) 6' Nylon Braided w/90° elbow
8212487RP: (2) 5' Nylon Braided
8212545RP: (2) 5' Red & Blue EPDM
8212656RP: (2) 10' Black EPDM
8212546RP: (2) 4' Black EPDM
8212641RP: (2) 5' Black EPDM

Industrial strength hoses safely and efficiently transport hot and cold water to the washer.

Steam Dryer Hose kit
Models 86HEB, 88HEA, 94HEA, 96HEA: W10473735

This dryer hose kit is especially made for steam dryers and includes (1) 5' hook-up hose, (1) 2' hook-up hose and O-rings.

Front Load Stack Kits (W10298318RP)

Install a 7.5 cu. ft. front load dryer on top of its matching washer with this stack kit. Retail polybag over pack of 12.

Compact Model Stack Stand (49971)

Install compact dryer model LER3622P or LDR3822P on top of the LCE4332P compact washer model with this stack stand.

Dryer Lint Brush (8212614)

Extend dryer life, lower utility bills and reduce drying time by regularly and thoroughly removing lint with this cleaning brush. For lint screen on top. Size 40" (L) x 2" (W) x 2" (D).

Top Load Washer/Dryer Cover (W10214580RP)

Protect your top load washer or dryer from environmental damage with this gray cover. The cover also cleans easily with a damp cloth.

Dryer Racks
Models 70HEB, 71HEB, 80HEB, 86HEB, 88HEA, 94HEA, 96HEA: W10322470A
Models 8000B, 8100B, 8500B and 8900B: 8577312A
Models 5500B and 5800B: 8212450A
Models 4800B and 4850B: 3406839

The dryer rack is convenient for flat items such as sweaters and hats, or for bulky items like footwear and stuffed animals. A quick and easy insertion of this lightweight rack means tumble-free drying.

To acquire pricing information, order Whirlpool® laundry accessories and determine delivery time, visit whirlpool.com/accessories or call 1-800-462-3819.

- (1) 4' pipe section attached to (1) wall-offset elbow
- (1) Extension collar
- (2) Clamps for wall and dryer connection
- Installation instructions

*Refer to Use & Care Guide for specific model. **Maximum length of 4" diameter rigid metal duct and flexible metal duct.

Glossary

AccuDry™ sensor drying system
Measures moisture and temperature levels to reduce overdrying and automatically stop the cycle when the load is dry. Dryers with the AccuDry™ system use less energy than Whirlpool® top load dryers equipped with the AutoDry™ system.*

Active Spray technology
Sprays the load with detergent in a cone-shaped pattern to completely and evenly cover the fabrics.

Adaptive wash actions
Up to 14 different adaptive wash actions in front load laundry and up to 11 in top load laundry, from rocking to tumbling, adapt to the cleaning needs of each load. These adaptive wash actions provide a combination of powerful cleaning and gentle fabric care, handling everything from heavily soiled jeans to delicate silks.

Adaptive Wash technology
Colors stay vibrant as Adaptive Wash technology delivers better cleaning performance** and gentleness. It combines Precision Dispense, adaptive wash actions and the Care Control temperature management system to help clothes look their best.

Advanced Moisture Sensing
Stop shrinking with Whirlpool brand's most advanced drying system. It uses precise drying and three built-in sensors, including an inlet thermistor and moisture sensing strips, to read temperature and moisture levels, so the drying cycle can end when everything is thoroughly dry, saving time and energy.

Allergen cycle
Remove up to 95% of common allergens from your clothes with the Allergen cycle.†

AutoDry™ drying system
Automatically senses when clothes have reached the right temperature and stops the cycle to save energy.

Care Control temperature management system
Adjusts the cold and hot water inlets to reach temperatures that are warm enough to dissolve detergents. Water is kept from overheating to help reduce shrinking and color bleeding.

CEE Tier standards
Based on the Consortium for Energy Efficiency (CEE) qualifying product lists—with Tier 3 being the most efficient. These models feature advanced water and energy savings and may qualify for rebates from local utility companies. Visit cee1.org for more information.

Clean Washer cycle with affresh® Washer cleaner
Deep-fills the washer to clean areas that low-water systems don't typically reach. All it takes is one cup of bleach. Using affresh® Washer cleaner also effectively eliminates odor-causing residue and cleans mold and mildew stains.

Cold Wash cycle
Uses adaptive wash actions together with a concentrated solution of HE detergent and cold water to gently lift stains and soils from fabrics. This cycle delivers great cleaning while protecting fabrics from heat damage and using less energy.

Deep Clean option
Penetrates deep into fabric fibers, breaking down and dissolving stains without pretreating. Select models add steam enhancement for even better cleaning.

Deep Water Wash option
Helps break down loose soils and using more water and thorough cleaning.

Delay Wash option
Sets the washer to begin cleaning up to 18 hours later, during off-peak hours when utility rates may be lower or when unloading the washer is more convenient.

Direct drive motor
Handles larger capacity loads, enhances the spin speed for improved energy savings and uses fewer moving parts so there's less wear and tear over time.

EasyView™ glass lid
Framed models feature a see-through glass lid that allows you to look inside and see the wash action while the load is in progress. It features a frameless design for a larger viewable area and a Smooth Close lid that opens and closes easily without slamming.

EcoBoost™ option with Eco Monitor
In the washer, this option uses a lower temperature and increased spin speed or mechanical action to provide excellent cleaning and reduce your overall energy use. In the dryer, this option saves energy by using less heat and an increased cycle time. You can even track the energy use of this eco-friendly option with the Eco Monitor.

Eco Normal cycle
Saves up to 40% dryer energy when paired with a matching Duet® or Cabrio® washer, compared to a traditional top load laundry pair.††

ENERGY STAR® qualified
Meets government standards to help conserve natural resources and save money on your utility bills.

Fabric Sense™ wash system
Available in select top load washers, the Fabric Sense™ wash system automatically matches your needs to the optimal temperature, cycle time and agitation speed for customized care and cleaning.

FanFresh® option with Dynamic Venting Technology®
After the wash cycle, the FanFresh® option's built-in washer fan circulates air in the washer, keeping your clean clothes fresh and free from odors for up to 12 hours. When activated, select models will automatically tumble clothes for up to 12 hours. You can even wash and dry a small load right in the washer.‡

*Electric models only. **Compared to traditional top load washers. †Allergens tested were dust mites and pet dander. ††Electric models only. ‡Based on a 2-lb load of lightweight fabrics.

Glossary

High efficiency (HE) sensor drying
Whirlpool brand brings high efficiency to the dryer with models featuring AccuDry™ sensor drying systems. Select models with Advanced Moisture Sensing also save energy and deliver better cleaning by adjusting dry time and temperature as needed and stopping the cycle when clothes are dry.

Oxi Dispense option
Enhances whitening performance with an eco-friendly alternative to bleach. An automatic dispenser distributes the oxygenated additive at the appropriate time, sending oxygen through the load to brighten fabrics.

Precision Dispense
Senses and adapts to each load, adding detergent, bleach or fabric softener at just the right time. A concentrated burst of detergent showers directly onto clothes to penetrate stains and pretreat soils. Precision Dispense Plus models add the ability to release oxi additives.

Precision Dispense Ultra
Penetrates stains and pretreats soils with a concentrated burst of detergent and holds enough 2X concentration HE detergent for up to 12 loads of laundry in a single filling.

Quad dryer baffles
Four shorter, staggered baffles increase the effectiveness of the dryer and promote better, more even tumbling.

Quick Wash/Dry cycle
Designed to clean or dry small, lightly soiled loads in less time using increased spin speeds to extract more water. The Quick Dry cycle even allows you to finish drying a load in as little as 13 minutes.

Quiet Spin technology
Install your top load laundry pair on a second floor and be assured of great out-of-balance performance and vibration control. Quiet Spin 360 technology's dual-ring ball-balancing system makes it our highest level of vibration control in front load laundry.

Quiet Wash/Dry noise reduction systems
Keep operational sounds inside the washer and dryer and out of living areas with sound-absorbing materials around the wash basket and dryer drum. Escalating levels of sound reduction are available, up to Quiet Wash Ultra and Quiet Dry Ultra.

Reduce Static/Static Reduce option
Uses tumbling and a spray mist in the dryer to evenly reduce the amount of static in an entire load of clothes.

Sanitization cycles/options
Eliminate 99.9% of certain household bacteria.‡‡ In select dryers, this feature provides excellent care for your clothes while eliminating 99.9% of three common household bacteria without washing.§

SilentSteel™ dryer drum
Forget about the sound of metal buttons and zippers making noise as they tumble, thanks to a unique sound-dampening material that surrounds the stainless steel dryer drum. The dryer runs quieter, even when you load items with metal accents.

Smooth impeller
Select high-efficiency wash systems feature a specially designed low-profile plate at the bottom of the wash basket to give you more wash capacity and better fabric care.

Smooth motion agitator
Brings your laundry to the bottom of the wash basket where cleaning takes place. It can effectively roll over and clean twice the average size load (based upon a 7-lb average load size).

Smooth Spiral stainless steel wash basket
The stainless steel wash basket resists odors and rust and features a spiral design for greater fabric care and gentle cleaning performance.

Stainless steel washer and dryer drum
The drum's stainless steel construction has a smooth surface that resists odors, rust and chipping and helps prevent fabrics from snagging or tearing.

Steam technology
In the washer, steam breaks down and dissolves tough stains without pretreating. In the dryer, features like the Enhanced Touch Up Steam cycle and Quick Refresh Steam cycle combine mist with heat to create steam to relax wrinkles and refresh dry clothes. Whirlpool® steam dryers also feature a Y-connector so you don't have to add water manually before starting a steam cycle.

Tap Touch controls
Allows direct access to washer and dryer functions, and its sleek appearance enhances the appeal of any space.

TumbleFresh™ option
Activates after the wash cycle is finished and rolls clean clothes periodically to help prevent wrinkles from setting in. Clothes stay fresh without having to transfer them to the dryer immediately.§§

Unique soft-touch impeller
Moves clothes gently through the water to provide excellent cleaning performance and gentle fabric care. To protect fabrics and fibers during the wash cycle, a specially designed material fully wraps the impeller vanes.

Wrinkle Shield™/Wrinkle Shield™ Plus option with Steam
Tumbles the dryer every 5 minutes after the cycle is complete to help prevent wrinkles from setting into clean, dry fabrics. The intermittent tumbling can continue for up to 150 minutes (based on the model), or until the door is opened and the load is removed. Wrinkle Shield™ Plus option adds the power of steam to the tumbling for improved results.

---

‡‡Bacteria tested were *K. pneumonia, P. aureginosa and S. aureus.* §Bacteria tested were *K. pneumonia, staphylococcus aureus* and *P. aureginosa.*
§§Intermittent tumbling in the washer helps reduce the growth of odor-causing bacteria.
